

I am very pleased with the Indiana Do Not Call list and it's restrictions. I do not wish to be contacted by any organization that is soliticting my business. I have ample opportunity to shop in person, on line, or by catalog for any service I want. I prefer to make my purchase decisions by doing my own research, price comparison, and contacting the business for additional information should I need it. I especially do not wish to be contacted at home in the evening--a time I treasure for it's designated purpose--home and family. If you must approve the request, please make Indiana an exception. Thank you.
